[REDACTED] 25X1

1. On 23 May 1952, the Fliegerhorst Kaserne in Cardelegeren (U 53/Y 44) was occupied by a rear detail of about 250 troops. Two hundred soldiers wearing black-bordered crimson epaulets were daily seen marching to the Jaevenitz cantonment to work on the construction of the camp. The air force soldiers who had been stationed there were transferred to the Remonteschule on the road to Helmstedt on 16 May 1952. A shipment of 46 new trucks was unloaded at the Fliegerhorst on 8 May. [REDACTED]

[REDACTED] three shipments with a total of about 170 new trucks were unloaded on 20 and 21 May. All trucks were unloaded over the spurtrack of the airfield. *

2. On 23 May, the Remonteschule on the road to Helmstedt was occupied by only a rear detail. The excavation work for a fourth radar set north of the Remonteschule was discontinued on 11 May. On 21 May, the radar set with ears north of Hill 63.2 was removed so that only two radar sets northeast of the Remonteschule were available. **

3. During the period from 13 to 23 May, the Jaevenitz cantonment east of Cardelegeren was enlarged by about 10 large temporary wooden barracks buildings and 100 tents. Prefabricated barracks sections which arrived at the Cardelegeren railroad station between 16 and 18 May were hauled to Zichtau near Kloeetze (U 53/Y 35) [REDACTED]

[REDACTED] A subcaliber target range was established in Zichtau. [REDACTED] the FDJ and the high-school students would practice there during the coming week. * [REDACTED]

[REDACTED] the Mozartstrasse has to be vacated by the German population by the end of May so that police may be quartered there. Official ceremonies on 8 May were attended by 5 officers and a military band.

- * [REDACTED] Comment. It is possible that the components of the 207th Uitz Rifle Div in the Fliegerhorst Kaserne which, based on previous information from the same source, were all carried in the installation [REDACTED] at the end of April 1952, have left for short-term practices at the Letzling Heath or for border guard missions. 25X1 ² Comment. The occupation of the Remonteschule with only a rear detail and
the radars, one of model Dumbo and the other of an undetermined type, northeast
25X1 of the Remonteschule are known. [redacted] The excavations which,
25X1 [redacted] were made for a third and fourth radar set are presumably
only alternate positions for the two radar sets available."
